### Spline Torque Bar - USSA-STB-018

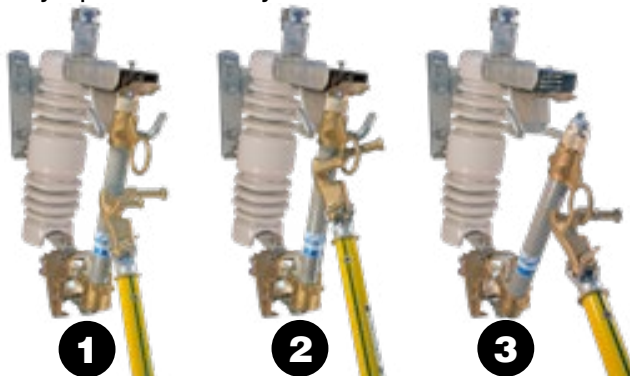

The Spline Torque Bar is an 18" long shotgun stick attachment that applies increased torque for padgear and other applications. Made from 1 1/4" foam filled insulated fiberglass with a black foam grip and machined spline end.

### Quick Grab Probe - USSA-QGP

The Quick Grab Probe quickly opens most any fuse door.

1. Lay the arched shaped head against the barrel
2. Slide up and rotate the top probe inside the pull ring
3. PULL!
