

Conductor Cleaning Brush

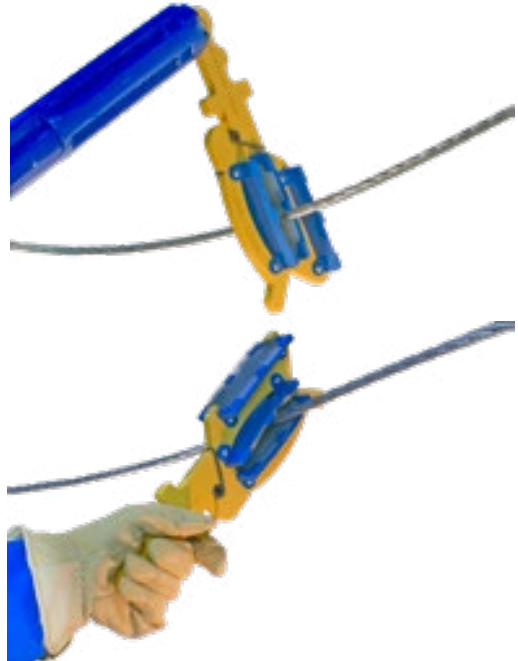

USCC-010

Stick Operable Brush

The Conductor Cleaning Brush offers 360-degree cleaning and is shotgun operable. The patent-pending flexible pads curve and fit conductors of varying sizes (see chart). A third outside brush allows for traditional style cleaning on any flat surface.

The Conductor Cleaning Brush offers a unique pad replacement feature that requires no tools. No need to throw away the tool when the pads wear out.

The ergonomic handle works great for glove or stick operation. Both tools are machined from a tough weather-resistant polymer and have heavy-duty spring-loaded jaws for aggressive cleaning.

| ITEM NUMBER | CONDUCTOR SIZE | WEIGHT | REPLACEMENT BRUSH |
|-------------|----------------|-----------|-------------------|
| USCC-010 | 1/8"-3" | 13 oz | USCC-010-PADS |
| USCC-011 | 3" - 11" | 1 lb 3 oz | USCC-011-PADS |
