

BLUE STRIPE® Telescopic Compact Stick

The BLUE STRIPE® Telescopic Compact Stick is a unique 30 foot ground operable hot stick that collapses significantly shorter than a traditional 30 foot stick. It's compact design also allows it to be transported easily to and from the job site without specialized storage tubes. It is capable of storing inside most truck cabs and passenger vehicle trunks.

With the optional Extension (USSA-EET-C) the overall length can be extended to 33 feet.

The Compact Stick offers the same proven technology of our other BLUE STRIPE® Telescopic Sticks. The epoxy resin and unique non-woven fiberglass construction creates

a smooth durable surface that resists water absorption. Our patented BLUE STRIPE® feature takes the hassle out of lining up buttons.

| SIZE | CLOSED LENGTH | WEIGHT | PROTECTIVE BAG |
|--------------|---------------|----------------|----------------|
| 30 ft. (9 m) | 49" (1.25m) | 14 lb (6.35kg) | USSB-006 |

It is patent protected under Patent number 6,875,917 and other patents pending. All BLUE STRIPE® Fiberglass Sticks are manufactured to meet industry standards including OSHA, ASTM and IEC as applicable.
