

BLUE STRIPE® Discharge Hook

The Utility Solutions BLUE STRIPE® Discharge Hook safely eliminates a static charge after de-energizing. It is a 1¼" diameter, 4' straight stick made of high performance closed cell foam and includes a tin plated copper "U" hook and 6' of copper grounding cable attached to a 2" aluminum "C" type clamp with serrated jaw.

It is also available as a 1' universal spline attachment which can fit on any length stick.

WARNING: Discharge Hooks are not grounding tools as described by OSHA 1910.269(n) and carry no fault duty rating.
